Dear Brian (of briansdreams.com)

You'd better do a whole lot better with providing information very PUBLICLY on this dream or Obama will be killed by the Clintons, via their connections to the CIA... so Hillary can be the next president. (They stop at nothing unless there's a lot of attention on them. Are you aware how many people Bill has 'arranged' with his various 'interventions' to be killed to cover up his dirty dealings? See *The Clinton Chronicles*.)

I had a dream 3 months ago about the same problem, however it is uncertain they can be stopped under any circumstances however if not enough is said publicly it will work in the Clinton's favor... they can be stopped. Another dream you had (6524, Feb 28) "*Barak poison, 164 Gerber Court, red/white SUV*" related to Obama being poisoned (but I guess anthrax is technically that.) Reason through it, if this is the third dream on this concern, he needs to be warned at the very least. Warnings are there so they can be used to preempt/avoid/stop the problem.

Have you read my book "*Practically Dreaming*"?

Alan
